

Josh Chamberlain

Work

Brigada d.o.o | Zagreb, Croatia

Worked in a diverse team of creative and psychology experts to create pitches and contracted design for furniture, retail environments, and office spaces. Sketching, field research, 3D modeling, trend research, manufacturing support, installation.
August to December 2016

Loft, LLC | Providence, RI

Worked in this small, fast-paced consultancy environment to deliver product, branding, and user experience design to clients. Led front-end concept development efforts on some projects, and back-end design for manufacturing and engineering refinement on others.
January to May 2016

Rapid Prototyping Center | UC

Worked with students to bring virtual models to life through CNC machining, 3D printing, and laser cutting. Immersed in prototype machining at all stages.
August 2014 to May 2017

CW&T | Brooklyn, NY

Worked closely with the small design team on a variety of projects. Provided design input with an eye toward manufacturing. Created packaging, assembly instructions, and product photography.
May to August 2015

Education

University of Cincinnati | DAAP

Industrial Design 2012–2017,
Bachelor's degree

Washtenaw Community College

Graphic Design 2010–2012,
Associate's degree

Skills

Screen

Rhino
Solidworks
KeyShot
Fusion 360
ArtiosCAD
Photoshop, Illustrator, InDesign
Delcam Powermill
HTML5 and CSS3
Excel, Word, PowerPoint

IRL

CNC machining various materials
3D printing
Manual wood and metal working
Physical prototyping
Product sketching
Clay and foam modeling
Small-batch manufacturing
Various printing processes

Interests

Calculus, collecting pens, bikes, cooking, printing, and hip-hop music. I get most excited about designing things I can prototype and build myself. I want to collaborate with people who care about making things well, and find joy in their work.
